

Our Grade Specific Programs

Pre-school, Kindergarten, and Grade 1:

- ✍ To develop an understanding of the importance of teeth and their functions
- ✍ To become acquainted with the dentist and his or her dental team
- ✍ To learn how to care and protect teeth through proper oral hygiene and a healthy diet

Grades 2-4:

- ✍ To develop an understanding of the importance of teeth and their functions
- ✍ To introduce children to the cavity-causing bacteria in our mouths
- ✍ To learn about how to care and protect teeth through proper oral hygiene
- ✍ To emphasize a healthy diet as a major contributor to healthy teeth

Grades 4-6:

- ✍ To introduce children to "The Tooth": it's functions, anatomy and the different kinds of teeth in our mouths including primary and permanent teeth
- ✍ To learn about the causes of tooth decay and gum disease
- ✍ To learn how to care and protect teeth through proper oral hygiene, prevention, and a healthy diet
- ✍ To introduce children to the use of mouthguards during sports

Planning a Field Trip?

Kids Dental welcomes student groups.

The Grinich Village – health discovery center is designed as a special place where children enrich their lifelong exploration of their ever-expanding world. In creating educational presentations, exhibits, and activities, children discover various aspects of dental and nutritional wellness. Along with a stage and sitting area for presentations and workshops there are interactive learning stations and a market where children can learn about the nutritional facts of foods.

Questions? Contact us!

We are here to make your class presentation or field trip experience as exciting and rewarding as possible. Please contact us if you have any questions or need information.

Book your in-class dental and nutritional health presentation or field trip to Grinich Village today!

Kids Dental Educational Programs

Educational and advocacy programs that playfully educate children and their parents on healthy eating habits and proper dental home care.

At Kids Dental® our invitation is simple - choose to be, cavity free!

It is designed to enhance public health learning. More than a field trip, Greenwich Village is a fun filled journey in an environment that encourages co-operative learning. Children interact with exhibits, adults, and each other in creative and imaginative ways.

It is our mission to instill a sense of excitement within children about their dental health and overall well-being.

Greenwich Market exhibit, where children learn about eating healthy.

Brushing workshop.

Our Educational Programs Include:

- 1) In class presentations
- 2) Class field trips to Greenwich Village, our health discovery center.

- ✓ Interactive learning games and tools.
- ✓ A Dental Health Educational Co-ordinator with grade specific programs and presentations.
- ✓ Videos geared towards helping children understand what to expect when going to the dentist as well as proper oral hygiene techniques.
- ✓ An activity package for each student, full of educational material supporting good dental health and eating habits.

Teachers will receive:

- ✓ Educational material and follow up resources for their classroom.
- ✓ Information to give parents regarding the presentation and future trips to the dentist.

Hands-on daily activity cards help kids focus on their nutritional and dental wellness.

Our school programs are:

- ✓ Approximately 30-45 minutes in length, however, can be tailored to meet the needs of the teacher.
- ✓ Scheduled between the hours of 9:00 am and 1:00 pm, Monday- Friday.

Kids Dental Educational Programs

Our educational and advocacy programs playfully educate children and their parents on healthy eating habits and proper dental home care.

Kids Dental is a dental home created to care for infants and children in such a way that is accessible, continuous, comprehensive, family centered, coordinated, compassionate, and culturally effective.

Our dental and nutritional health programs reach out to children by creating a dynamic experience dedicated to helping students learn by participating and doing. Our presentations are designed for both as an in-class experience as well as an out-of-class experience where children come to Kids Dental to learn and interact in Greenwich Village, our health discovery center. Greenwich Village is a natural extension of the classroom.
